James Street Step Repairs

Northside

The project is the repairs of the steps that connect James Street with Fountain Street on the North Side neighborhood of the city.

The steps were built in 1948 and the aging structure is in need of concrete repairs. Part of this project is the reconstruction of a portion of the sidewalk at the top of the steps on Fountain St.

These steps represent an important pedestrian route that connects the North Side with Fineview, and also provide access to the Fineview Fitness Trail.

Project Timeline

October 2019 – Construction start

December 2019 – Project completion

Project Contact

Project Manager: Daisy Saldarriaga

Title: Project Engineer
