Pittsburgh PARKING Authority

WOOD-ALLIES PARKING GARAGE

STRUCTURAL STEEL FRAMING REPAIRS

The Public Parking Authority of Pittsburgh ("Authority") is requesting bids for the removal and replacement of six (6) structural steel beams at the Wood-Allies Parking Garage. The facility is a 10 level garage that was built in 1984.

Each Bidder is hereby put on notice that, if awarded the Contract, and if the Contract exceeds $25,000.00 in value, the Bidder will be required to pay to the workers employed in the performance of the Contract the general prevailing minimum wage rates, to be included in Addendum #1, including contributions for employee benefits.

Scope of Work:

- Work shall consist of all labor, materials, tools and equipment required for storage/staging areas and the general mobilization of equipment required for the completion of the work.
- Contractor is responsible for the design, installation, and maintenance of the entire shoring system. Shoring shall be designed by a licensed professional engineer. The Owner and Engineer do not take any responsibility for the determination of whether shoring is required for any repairs or not.
- This work shall include the removal and replacement of six (6) structural steel beams at locations indicated on the drawings according to the specifications and repair detail sheets. The work will be performed during two (2) separate phases wherein the facility would shut down portions of at least three levels.
- Contractor is responsible for the protection and/or relocation of existing mechanical and electrical systems, in order to implement the repairs.
- Upon completion of the work Contractor shall clean the site of all rubbish, litter and other foreign substances. Sweep areas broom clean; remove stains, spills and other foreign deposits to the satisfaction of the Authority.
- The contractor who is awarded the contract shall provide the necessary insurance, bonds and warranty that material and workmanship is free from defects.
