UPDATED TEMPORARY PROCEDURES FOR THIRD PARTY AGENCY

All Third Party Agencies seeking to perform limited UCC services for acceptance by the City of Pittsburgh, are required to apply using the current application forms, dated June 27, 2016, and must be approved by the Department of Permits, Licenses, and Inspections.

Application for New Third Party Agency services:

Third Party Agency services by individuals that have not been approved under the current application forms will not be accepted.

Previously Approved Third Party Agency services:

Reports for UCC services from previously approved Third Party Agencies will be accepted until September 1, 2016. However, Third Party Agencies that had been previously approved must also re-apply using the current application forms.

Reports from Third Party Agency individuals that have not re-applied for approval using the current application forms will not be accepted after September 1, 2016.

The City of Pittsburgh intends to reassume all UCC plan review and inspection functions currently requiring Third Party Agencies. These measures remain temporary and may be amended or terminated as necessary.
