

Dear Friends of Frick Environmental Center,

Frick Environmental Center (FEC) actively promotes environmental education and focuses on the restoration of the 151-acre Frick Woods Nature Reserve. It is through continued support of members that we are able to accomplish our goals and expand our efforts.

Some of the greatest benefits of FEC membership are promoting environmental awareness to thousands in the Pittsburgh area, contributing to the restoration of the habitats in Frick Park, early registration for summer camps, discounts on program fees, and aiding in preserving the park for present and future generations. FEC uses your membership dollars to further its mission: ***to foster a sense of stewardship and broaden awareness of the local environment through educational programming and community involvement.***

Become a member today! Join at as high a level as your resources allow, and help ensure that this phenomenal natural resource and public place is viable for years to come!

Become A Member! "Education Through Restoration"

As an active member you will receive the benefit of:

- *Supporting environmental education for thousands of people in Pittsburgh and the surrounding area**
- *Priority in the choice of summer camp sessions and discounts on program fees**
- *Supporting ongoing environmental restoration work in Frick Park.**

I would like to support Frick Environmental Center. Please accept my membership at the indicated level:

- \$15 Individual/Student Level**
- \$30 Family Level**
- \$50 Stewardship Level**

I would like to support Frick Environmental Center by helping to maintain low program fees and sustaining ongoing restoration work. Please accept my membership at the:

- \$100 Contributing Level** *I would like to contribute an additional \$_____ to support ongoing FEC efforts.
