Subject: JD Edwards Software Licenses

Dan,

Please accept this email as confirmation that DLT Solutions (DLT) no longer asserts that a valid order was placed with DLT for JD Edwards (JDE) software licenses from the City of Pittsburgh (the City) during November 2009. We have confirmation from Oracle that Allegheny County's (the County) existing JD Edwards license CSIs are being reinstated as if a November 2009 transaction did not occur. DLT will no longer pursue compensation from the City or the County for a JDE software license order placed during November 2009.

Please contact me with any questions.

Russ
