

City of Pittsburgh

*Department of Public Safety
Bureau of Police*

The Pittsburgh Bureau of Police is proud to be hosting our 2nd “Steel City Police Motor Skills Training”. To be conducted on June 27th through June 29th 2013. It is our opportunity to give back to the community that supports law enforcement. The Steel City Police Motor Unit Skills Training is a non-profit event that will raise funds and awareness for the **Allegheny Co. Special Olympics**.

The event will take place over three days. The third day of the event is the actual competition day. The riders will compete against each other in both slow skills cone courses and timed cone courses.

The entire event will be open, free of charge for the public to view. Only active police officers on police motorcycles are eligible to participate in the competition. There will also be space available for various vendors to come and promote their products. Food vendors are also welcomed to come and supply those who attend with a variety of food choices while at the event.

The location for this event will be the lot located at 26th St. and S. Water St. The location provides us with ample room to allow the large number of spectators anticipated to come and enjoy the talents and skills of the many riders from around the country who will be coming to compete. There is plenty of onsite parking to accommodate any number of visitors and spectators that may come to the event.

On behalf of The Pittsburgh Police Bureau of Police and The Allegheny Co. Special Olympics we are requesting your help and support with any donations / contributions.

For general donations please send to:
