## PROCEDURES MANUAL FOR DEVELOPERS

### *CHAPTER 1 - PWSA REQUEST FORM FOR WATER AND SEWER AVAILABILITY*

#### *1.1 Purpose of the PWSA Request Form*

---

The Pittsburgh Water and Sewer Authority (PWSA) requires that all permit applications for water and/or sewer service begin with the PWSA Request Form for Water and Sewer Availability. The applicant is asked to complete a Request Form and submit the form to the PWSA Engineering Department. PWSA will respond by completing the bottom section of the Request Form, indicating if PWSA-owned waterlines and/or sewer mains are physically located near the project site. A copy of the form will be returned to the Applicant along with known Facility Mapping.

PWSA's response to the Request Form is not a permit. Once the applicant receives the Request Form from PWSA then the applicant must follow the existing procedures for obtaining approval for the water and/or sewer service(s) needed for the development(s). The applicant/developer is strongly encouraged to schedule a pre-application meeting with the PWSA staff in order to discuss the available water and/or sewer service for the proposed development. The applicant /developer is encouraged to bring a site location map, site plan or survey and must be prepared to discuss the existing and proposed use(s).

A copy of the Request Form is found on the following page.

#### *1.2 Single Family Residential Development*

---

Applications for water and sewer service for one single family residential home are **not required** to submit this Request Form. If the applicant desires to apply for water and/or sewer service for a single family residential home, then contact the PWSA permit counter at (412) 255-2443. The applicant must pay any associated fees related to the water and/or sewer tap-in permitting before the work can proceed.
