

Watson Street – Waterline Replacement Project

PROGRESS AND LOOK-AHEAD:

- To date, installation of 625-ft of new 8-inch water main is complete.
- To date, all service lines have been connected to the new 8-inch water main.
- During March, temporary street restoration will be performed and sidewalks and curbs will be installed.
- Final street restoration will be performed by others once weather breaks in the Spring.
- The project is approximately 95% complete.
- The anticipated project completion date is April 30th, 2017, weather permitting.
