b. The Developer will provide, in construction contracts pertaining to the Extended Facilities that (1) the Authority is a third-party beneficiary of such work, that the contractor understands and agrees that it is providing the Authority with the same guarantees it provides to the Developer, and that the Authority shall have the right to enforce the contract(s); and (2) that the construction contract is assigned by the Developer to the Authority effective with the Authority's termination of this Agreement upon an Event of Default (as defined below) and the Authority's notice to the contractor of its intent to accept the assignment, such assignment being subject to the rights of the surety or other guarantor of the Developer's performance.

6. Developer's Bond or Performance Bond.

c. Prior to and as a condition precedent to the Authority's approval to proceed with construction, the Developer shall deliver to the Authority a developer's bond, performance bond, irrevocable letter of credit or other security acceptable to the Authority, from a source or sources acceptable to the Authority, guaranteeing to the Authority the completion of the Extended Facilities in accordance with the approved Plans. The amount of the developer's bond or other security shall be equal to one hundred (100%) per cent of the cost of the Extended Facilities as established by submission to the Authority of a bona fide bid or bids from the contractor or contractors chosen by the Developer or, in the absence of such bona fide bids, by estimate prepared by the Developer and approved by the Authority's engineer.

d. The amount of the developer's bond or other security shall be increased under the following circumstances:

(1) if the construction is not complete and the Authority has not accepted the Extended Facilities within one (1) year of the date of issuance of the performance bond or other security, the Developer shall have the amount of the bond or other security increased by ten (10%) percent, to one hundred ten (110%) per cent of the amount of the initial bond or other security and, if required, by an additional ten (10%) percent for each subsequent year prior to completion and acceptance;

(2) if the estimated construction cost of the Extended Facilities, established in accordance with subsection a. above, increases by more than ten (10%) percent, then the developer's bond or other security shall be increased in like amount.

c. Upon written certification from the Authority's inspector that portions of the Extended Facilities have been satisfactorily completed, the Authority may authorize the release of the cost of each such satisfactorily completed portion from the original security posted by the Developer; however, prior to final completion, the financial security shall not be reduced to less than ten (10%) percent of the estimated cost of the New Facilities.

e. Upon the Authority's acceptance of the Extended Facilities, as provided in Section 12 below, the Authority shall discharge the developer's bond or other security.

7. Standard of Care.

f. Developer shall perform or have performed the work and services contemplated by this Agreement with that degree of care and diligence practiced by recognized firms providing services of a similar nature; shall cooperate with the Authority to further the installation of the Extended Facilities in accordance with this Agreement; and shall furnish sufficient business administration and adequate supervision in order to accomplish the foregoing.

g. The Developer shall be completely and solely responsible for any and all property damage, financial losses, and/or interruptions of service arising from construction activities related to the Extended Facilities or the Plan and affecting water lines, gas lines, electric lines, telephone lines, cable TV lines, drain lines, sanitary and storm sewer lines and all appurtenances and service facilities connected thereto, or any other property of any kind, whether resulting from the activities of the Developer, its employees, agents or contractors (including subcontractors and suppliers of any tier). Upon the occurrence of any such property damage or interruption of service, the Developer shall immediately take action to repair and restore any and all such damaged or disturbed facilities with a material and by a method approved by the authority having jurisdiction over the disturbed facility.

8. Inspection and Testing.

h. The Developer or its representative shall provide the Authority with twenty (20) days' notice of pre-final and final inspections of the Extended Facilities or any portion thereof.

i. The Developer will require its contractor constructing the Extended Facilities to test and, with respect to water lines, to perform sterilization, in accordance with the requirements of the approved Plans. The Developer will provide the Authority twenty (20) days' notice of such tests and sterilization, with the opportunity to observe such testing or sterilization, and with copies of any written reports on such tests and sterilizations.

j. Provided that the required notice is provided to the Authority, the Authority shall cause an authorized representative to inspect the work and observe the tests in a timely manner so as not to delay the construction. After any such inspection or observation and, when necessary and appropriate, receipt of any written report on such tests, the Authority shall promptly and in writing either accept such work as completed or reject such work, indicating the reason or reasons therefor.

d. If, contrary to the requirements of subsections a. through c. above, the Extended Facilities or any portion thereof are covered or concealed prior the Authority's inspection, the Developer shall have the work uncovered, at the Developer's cost, so as to allow the inspection.

9. Indemnification. To the fullest extent permitted by law, the Developer agrees to indemnify, defend, and hold harmless the Authority and its employees, agents, and consultants ("Indemnitees") from and against any and all claims, demands, causes of action, judgments, damages and costs, including attorneys' fees and costs of defense (hereinafter "Claims and Damages") arising out of or relating to the design and construction of the Extended Facilities, including but not limited to any repair costs and any incidental or consequential damages incurred by the Indemnitees due to any failure of the Developer to have the Extended Facilities or their connection to the Authority (trunk line) (water distribution main) installed and constructed in accordance with that degree of care and skill customary to the field or in accordance with the Plans approved by the Authority. The defense and indemnification obligations accepted by the Developer under this paragraph exist regardless of whether such Claims and Damages are caused or allegedly caused in part by the Indemnitee(s), it being the intent of the parties that the Developer shall indemnify the Indemnitees against the Indemnitees' own negligence. Provided, however, that the Developer shall have no obligation to defend or indemnify the Indemnitees against their sole negligence or willful misconduct.

If any required action has not been taken within ten (10) days of such notice or, for repairs or replacements that cannot reasonably be accomplished within ten (10) days, commenced within that period and continued and completed with reasonable diligence thereafter, the Authority may proceed to repair, replace and maintain the same, or contract to have the same done, and collect the cost of such repairs from the Developer and/or its security provider.
