GENERAL INFORMATION REGARDING THE SMITHFIELD LIBERTY GARAGE

629 SMITHFIELD STREET, PITTSBURGH, PA 15222

The Smithfield Liberty Garage is a nine-level parking structure that functions as a single helix with one-way traffic up through the garage and a single threaded helix ramp down to exit.

The Smithfield Liberty Garage has two entrances and exits on both Smithfield Street and Liberty Avenue.

The garage has 616 parking spaces and was opened in 1965.

The structural system utilized in the garage is cast-in-place, conventionally reinforced concrete slabs supported by structural steel beams and columns that are encased in concrete.

The concrete encasement does not serve a structural purpose.
