DYE TESTING RESULTS

The Pittsburgh Water and Sewer Authority (PWSA) has deemed that the property referenced below is located in a sanitary sewer area. A dye test must be performed to determine the sources of storm water on all structures such as roof leaders, yard, driveway, and sub-surface drains.

Date of Test: _____ Ward: _____ Allegheny County Parcel ID: _____

Owner's Name: _____

Property Address: _____

Dye Test

Number of roof leaders, yard, driveway, and sub-surface drains tested: _____

_____ Pass _____ Fail

If failed (connected to the sanitary only sewer), check all that apply:

_____ Roof leader _____ Yard drain _____ Driveway drain _____ Sub-surface drain

_____ Other (please specify) _____

Printed Name of Plumber: _____ HPID#: _____

Address: _____ Phone: _____

Signature of Plumber: _____ Date: _____

If you have any questions or concerns in regard to this property, please do not hesitate to contact the PWSA at (412) 255-0801. It is recommended that the plumber contact the PWSA before changes or corrective actions are made (except for raising a FAV). Final confirmation must be provided to the PWSA by a registered plumber to verify proper repairs have been completed. Passing must be in compliance with the current Ordinances and Codes of the City of Pittsburgh, PWSA, and Allegheny County Health Department (ACHD) Plumbing Section. For a failed dye test, corrective actions are required and must be performed in compliance with the current Ordinances and Codes of the City of Pittsburgh, PWSA, and Allegheny County Health Department (ACHD) Plumbing Section. When connection to a storm or combined sewer is required, prior to commencement of any repairs, an ACHD Plumbing Permit shall be obtained and noted in the space below. Additional permits may be required prior to any corrective actions.

ACHD PERMIT No.: _____

Date Issued: _____

Documentation of Corrective Actions Taken

Instructions for the completion of this form:

- A. Sketch all structures, including driveways, at approximate location on lot
- B. Show street
- C. Identify manholes (MH) and storm inlets (SI)
- D. Show the following, using the symbols indicated:
 - SS - Approximate location of sanitary sewer
 - # - Downstream test manhole
 - ° - Roof leader downspout location
 - - Yard drain location
 - Δ - Driveway drain location
 - == - Sub-surface drain location

Front of Structure/Street

For problem properties, please attach sheet with additional details and sketches.

Comments: _____

____ Corrective action(s) have been completed and a registered plumber has conducted a subsequent dye test and has certified that there are **NO** storm/surface or sub-surface water drains connected to the sanitary sewer system.

Corrective Actions verified by:

Printed Name of Plumber: _____ HPID#: _____

Address: _____ Phone: _____

Signature of Plumber: _____ Date: _____
