

## Smallman Street Water and Sewer Line Project

### PROGRESS AND LOOK-AHEAD:

- 516 of the 2,000 feet of 12" waterline has been installed.
- Saw cutting and preparation work has begun on the 36" waterline.
- Environmental testing on waterline side of Smallman Street has occurred. Results are due to contractor this week.
- Project Signage was posted promoting project information, parking and businesses are open.
- Regular meetings being held with merchants/property owners.
- The anticipated project completion date is January 2019, weather permitting.
