RECOMMENDING AWARD:** URA – Department of Engineering and Construction

**WAS AWARD MADE TO LOWEST  
RESPONSIBLE BIDDER(S)?** YES  NO  n/a

**IF NO, DEPARTMENT AND/OR AUTHORITY MUST PROVIDE EXPLANATION:**

The kiosk at the South Shore Riverfront Park was damaged by a drunk driver for the second time in two years during 2013. The first time, the URA suffered significant and costly losses as a result of burglary of various electrical devices from the unsecured damaged kiosk. In order to prevent burglary of these items following the second incident, it was concluded that the electrical items should be removed and/or secured prior to demolition of the kiosk. Smith Electric was already performing work for The Soffer Organization on-site at the time, so it was decided to use them to respond to what was believed a task that should be done in an expeditious manner. The work was accomplished within two weeks by Smith Electric.
