EXPLANATION:**

The City of Pittsburgh requested that the URA make repairs to the street lighting system that was constructed by the URA in the mid 1980's through the late 1990's on Washington's Landing prior to the City's acceptance of the dedication of the public improvements. Allegheny City Electric, The City's "B" contractor, investigated the malfunctioning street lights for the City, therefore, it was decided to use them to expedite this work.
