### Electrical Permit Changes Effective Immediately

Effective 11/22/2016, the City of Pittsburgh will be requiring **Third Party Agency Inspections on all new electrical permits, both residential and commercial.**

Existing residential electric permit holders that have been assigned to City Inspectors will be given the option to continue with city inspection, or may obtain TPA inspections to complete the work.

Please refer to the updated information and forms available on [our website](#), and kindly let me know if you have any questions.

We have also revised out [residential permit applications](#) to reflect the changes.
