

# Koinobori Japanese Carp Windsock

Have fun creating a beautiful Koinobori Japanese carp-shaped windsock. Koinobori windsocks are traditionally flown to celebrate Children's Day.

## Directions:

Lay the Koinobori windsock flat. Decorate lightly with markers, around the windsock gills and fins.

Lightly spritz the windsock with water.

Let the windsock dry, fold in half taking care to line up the edges. Do not crease!

Tape with scotch tape.

Loop the yarn through the fish's mouth and fly your windsock.
