

Jute Twine Thursday

Have fun creating a colorful bracelet or necklace!

Measure around your wrist or your neck and add about four more inches to this measurement. This will let you easily tie a knot later on.

Cut your twine and begin stringing your beads. Be careful not to let them slip off the other end!

Continue adding beads in a fun pattern, leaving the four inches measured earlier.

Ask a friend to tie the beads around your wrist or neck with a knot and trim the extra twine.

YOU'LL NEED:

Scissors
Beads
Twine or String
