

CITICAMP @ HOME

Space Station Pittsburgh Parent/Guardian Guide

Join Caterina and have fun exploring our solar system in Space Station Pittsburgh! Learn how gravity works to keep planets orbiting the sun, fun facts, and more!

Learn new words you can use to win prizes!

Enjoy solving puzzles and playing games!

Maker Monday

Make a Kaleidoscope

Make and decorate a Kaleidoscope! Learn how Kaleidoscopes use two or more angled reflecting surfaces to produce symmetrical patterns!

Have fun solving Kaleidoscope Math Problems!

Directions and materials included.

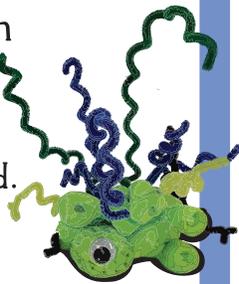

Make an Alien Tuesday

Roving Art Cart Model Magic

Have fun creating your own Alien and writing fun facts about their world! Color their Alien World!

Directions and materials included.

Rocket Wednesday

Roving Art Cart Rocket Wind Sock

Decorate a fun Rocket Wind Sock to fly! Learn the movement of air as you fly your wind spinner.

Directions and materials included.

Outer Space Thursday

Roving Art Cart Mini Flying Discs

Decorate your mini-flying space disc and learn the Aerodynamics of Flying Discs. Find out how the key forces of lift and drag work and how spin and angle affect the flight!

Directions and materials included.

Fun Friday

Word Warrior Fun Friday Surprise!

Choose a word from the Space Station Pittsburgh book - and write and draw a story of your own! Bring your work back on Friday to win a Fun Friday Surprise!
