How did the meeting inform the community about the development project?
Ex: Community engagement to-date, location and history of the site, demolition needs, building footprint and overall square footage, uses and activities (particularly on the ground floor), transportation needs and parking proposed, building materials, design, and other aesthetic elements of the project, community uses, amenities and programs.

Presented the location on the roof, the addition and the roof deck from multiple perspectives of Downtown. Renderings show detail of the project. Need two variances: FAR for a non-residential and incline plane. Dollar Bank will be the tenant for four floors of the building, they are looking forward to have this amenity for their staff. Would like to have endorsement from the RCO. Under a tight schedule, but moving along, and meeting deadlines.
