East Street between Mt. Pleasant Rd and Evergreen St

Perry North, North Side, District 1 – East Street is included as part of the proposed bike network in the 2020 Bike(+) Plan for the City of Pittsburgh which will serve commuters and recreational cyclists.

Proposed bicycle facilities will eliminate a network gap between existing facilities on East St and Mairdale Ave and connect to proposed facilities on Perrysville Ave, while also improving connectivity around the Northside and to Downtown.

Existing Conditions at East Street near Venture Street
