

James Street Step Repairs

Northside

The project is the repair of the steps that connect James Street with Fountain Street in the North Side neighborhood of the City.

The steps were built in 1948 and the aging structure needs concrete repairs. Included in this project is the reconstruction of a portion of the sidewalk at the top of the steps along Fountain St.

These steps represent an important pedestrian route that connects the North Side with Fineview and also provides access to the Fineview Fitness Trail.

Project Timeline

Spring 2021 – Construction start

Summer 2021 – Project completion
