Screening Tool

The committee reviewed the Screening Tool draft prepared by Director Torres. The following changes were recommended:

1. Change all of the language regarding racially and ethnically concentrated areas of poverty (RECAPs) to “increase access to amenities for all protected classes, especially those in RECAPs”
2. Add social and health services, community and recreation spaces, shopping, and accessible roads and sidewalks to the amenities section
3. The word “dismantle” would be changed to “decrease” to remain consistent with the other questions

A webinar will be hosted by Ms. Schwartz of the Housing Alliance at 2:30pm on January 3, 2018 to explain to Task Force members how to properly make use of the screening tool form. Director Torres will present the specifics of the screening tool.

January 9th Quarterly Meeting Agenda

The suggested revisions made by the full Task Force via the screening tool forms will be reviewed by the committees. Those who submitted comments would be invited to participate in a follow up committee meeting to discuss the revisions. The committees’ presentation of the recommendations and comments would be limited to a few minutes per recommendation during the meeting.
