Stanton Heights - 10th Ward

This project is the reconstruction of the city steps that connect McCandless Ave to Stanton Ave in the Stanton Heights / Upper Lawrenceville neighborhoods of the City of Pittsburgh. These steps represent an important pedestrian connection in the area, as identified in a study made by DOMI. The existing steps were built in 1971 and are in poor condition.

The project is starting preliminary design and is expected to be ready for letting in the winter of 2021 and be completed in the fall/winter of 2022.

When the project is complete, the pedestrian mobility of the community will be improved.
