Mt Washington – 19th Ward

This wall supports the sidewalk and Grandview Ave near the Mon Incline Upper House. The existing wall has deteriorated and needs replaced in order to maintain the stability of the sidewalk and the street. The sidewalk in this area has been closed since a truck ran over the sidewalk and caused the wall to give way.

Replacement of this wall will allow the sidewalk to be reopened and used by residents and visitors to look out over the City from Mt Washington.

The design is getting started and should be completed in the winter of 2021. After the final design is completed, the project will be advertised and a construction contract will be awarded. Project completion is expected to be in the summer of 2022.
