PLEASE STAY ALERT, SO NO ONE GETS HURT

Hi, I’m Bobbi!
I will be collecting trash from several hundred houses every day! Please slow down and look for me before you attempt to pass my truck.

Please think of my safety as you:
- Secure and wrap sharp objects like broken glass and serrated can lids with heavy paper and put in the trash.
- Secure needles and syringes in a hard plastic container with a tight-fitting lid, labeled ‘medical waste’ and put in the trash.
- Use a container that is less than 35 gallons in size and weighs less than 35 pounds.
- Double bag diapers and animal feces outside of trash can for collection.
- Maintain clear access from the street to the trash you have placed at the curb for me to collect.

Household trash is collected curbside every week. Recycling is collected every other week.

Bulk Items: Each single family home, duplex, small apartment dwelling is allowed to set out two bulk items per unit each week for collection. Acceptable bulk items include furniture, windows, toilets, mattresses, box springs and items too big to fit into a 35 gallon container or heavier than 35 lbs. Any more than two bulk items will not be picked up unless special arrangements for the service fee are made in advance. Carpeting and fencing must be tied and bundled and not exceed 35 pounds or 5 feet in length.

**Excessive construction and demolition materials will not be collected and can result in a citation. Automotive parts are also prohibited. Please make separate arrangements to bring these to a landfill**
You got a blue bin!
Your neighborhood already received blue bins! No need to bag recyclables — blue bags clog equipment at the recycling facility and degrade the quality of recyclables. Please do your part to help make the City of Pittsburgh “Bag Free by 2023.”

What goes inside my blue bin for curbside collection in Pittsburgh?

**Pittsburgh Recycles**
Place clean recyclables loosely in your bin, no plastic bags, and set out on your recycling pickup day.

</table>

**Notes on Curbside Collection Timing, Size, and Access:**
All items for pickup must be set out no earlier than 6:00 p.m. on the night before collection and no later than 6:00 a.m. the day of collection.
All trash cans set out for collection must not exceed 35 gallons in size and must be removed from the curb after collection on your pickup day (City code 619).
Snow must be removed from sidewalks within 24 hours after each snowfall. Please do not plow snow, sleet or ice against garbage receptacles (City Code 419).
Please do not rake leaves into the street. They clog the sewers and create hazards.
