

# TROLLEY TRAIL

April 13, 2022

## Project Funding

Estimated Design & Construction cost - \$1,400,000.00

## Funding sources

GEDTF GRANT

Local funding

## Project Timeline

Spring 2021 – Consultant solicitation & selection

Summer 2021 – Start Preliminary design / Community meetings

Summer 2022 – Begin Final design

Spring 2023 – Put out to bid for construction

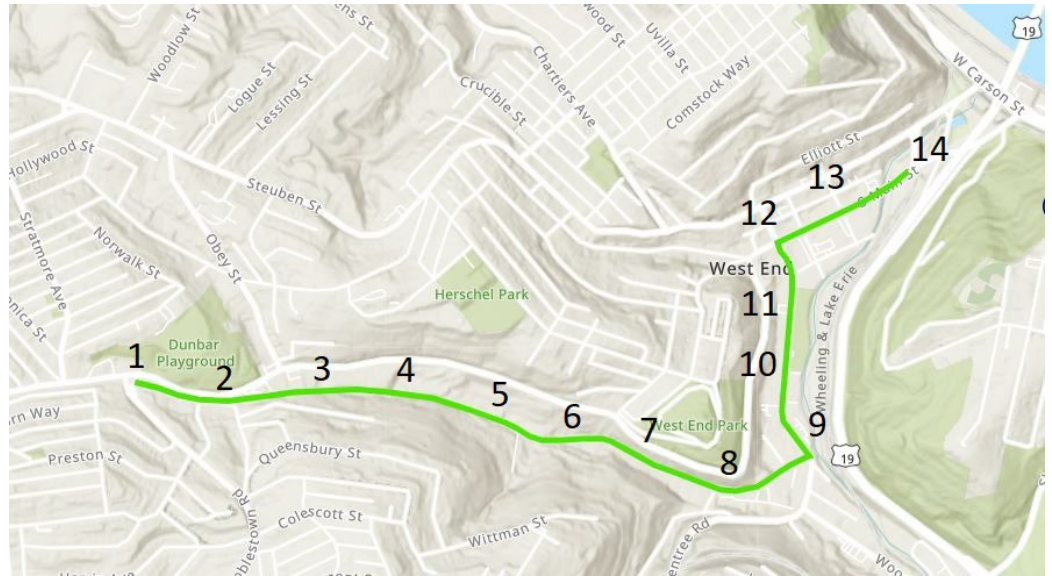

Summer 2023 – Start construction

## Project Contacts

Aerial view of neighborhood

The West End Trolley Trail is a highly anticipated project that reimagines a vacated trolley line into a shared-use connection.

The Department of Mobility and Infrastructure (DOMI) and Council President Theresa Kail-Smith have worked with community groups in Crafton Heights, Ridgmont, Westwood, and West End to ensure that this public asset meets the vision of the residents of these neighborhoods.

The area begins at the intersection of Crafton Boulevard and Nobletown Road adjacent to an existing trail and continuing approximately 0.6 miles to McCartney Street. The trail then continues as on-street infrastructure along McCartney Street and Wabash Street to connect to the West End and beyond.

The project will be constructed in two phases. Phase 1, consisting of the off-road section of trail that follows the historic trolley line, will start construction in the summer of 2023. Phase 2, which will provide the on-road connection through the West End, will follow.
