

# Wightman Timeline

## WIGHTMAN PARK IMPROVEMENTS SCHEDULE

**Schematic Design**  
The Master Plan is developed in more detail. Decisions are made about general layout of spaces and specific program elements. Initial meetings with approval authorities takes place, including Art Commission, Department of Public Works, PWSA, and Allegheny County Conservation District.

**Design Development**  
Specific plans, products, and details are developed. Cost estimates are developed and updated as the layout, grading, utilities and other elements are developed in more detail. Additional meetings with approving authorities takes place, including Allegheny Health Department, Department of Public Works, PWSA, City Planning, etc.

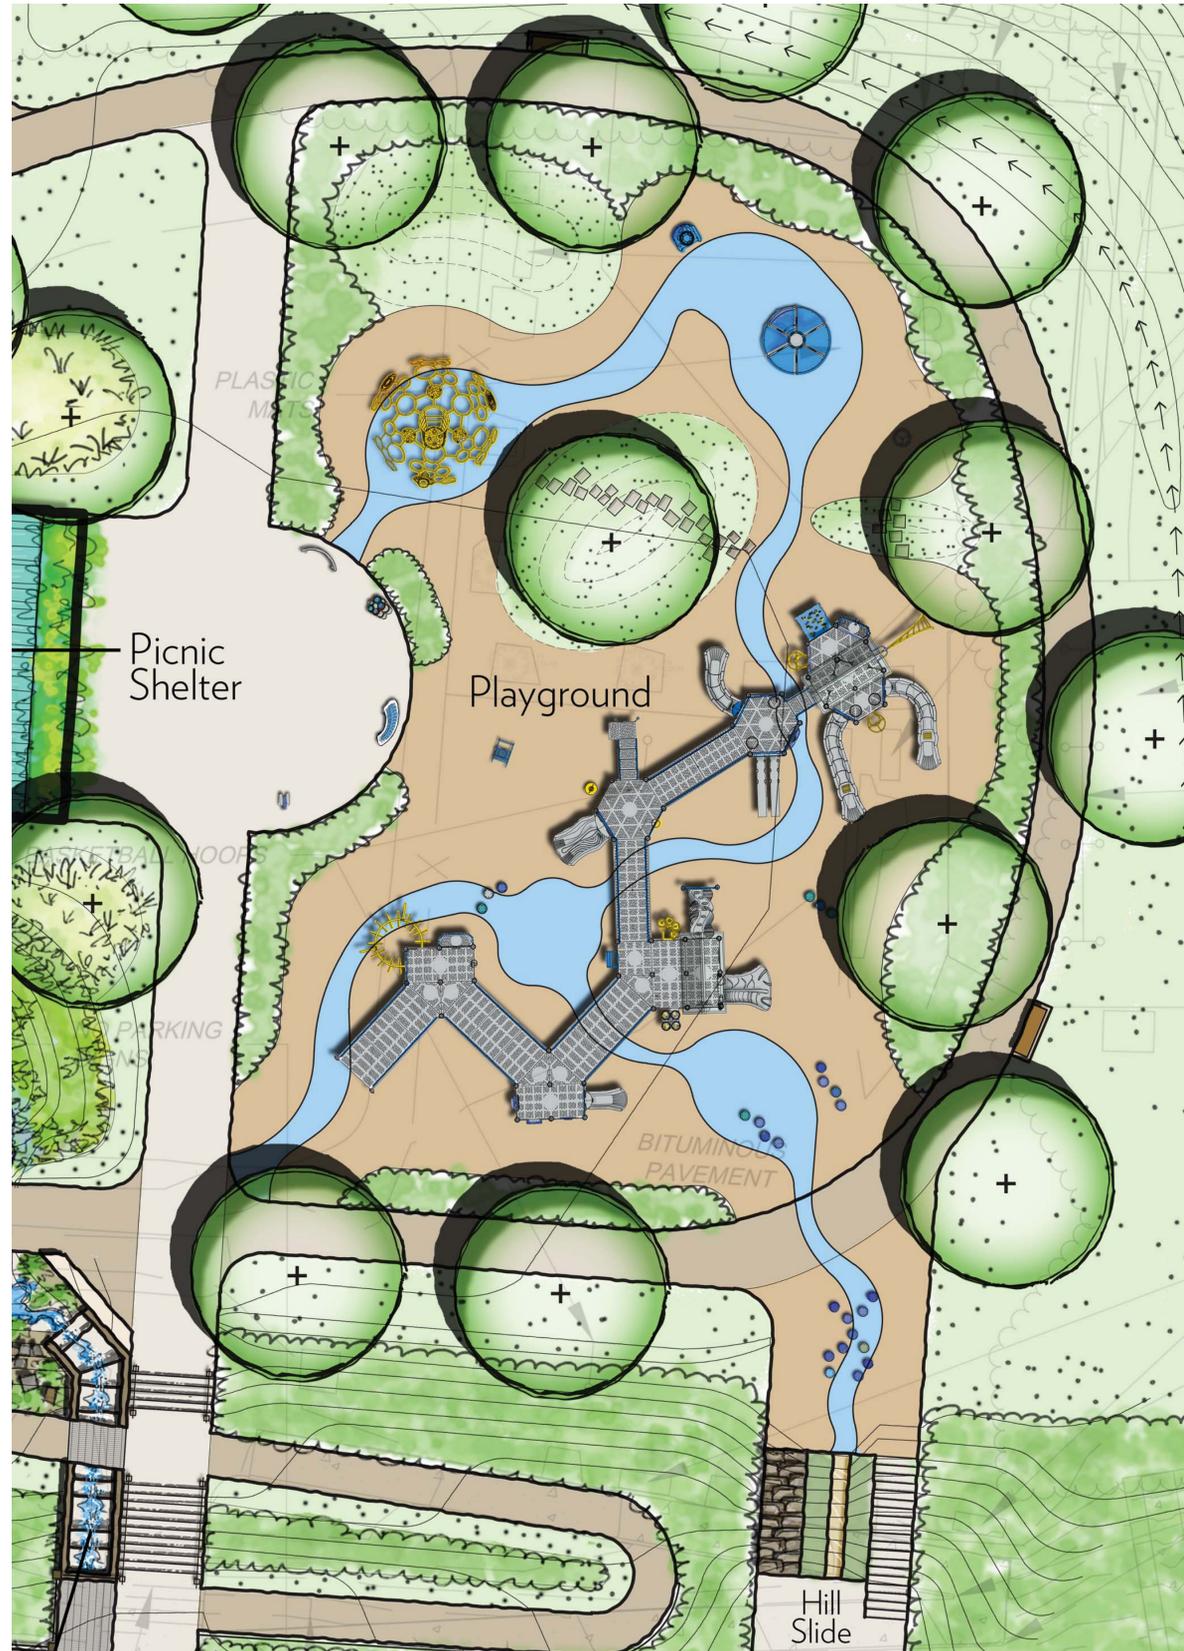

**Construction Documents**  
Technical drawings and specifications are produced. Drawings are submitted for final approvals and permits from Art Commission, City Planning, Department of Public Works, PWSA, Allegheny Health Department, and Allegheny County Conservation District.

**Bidding**  
The contractor is selected, contracts are negotiated and approved.

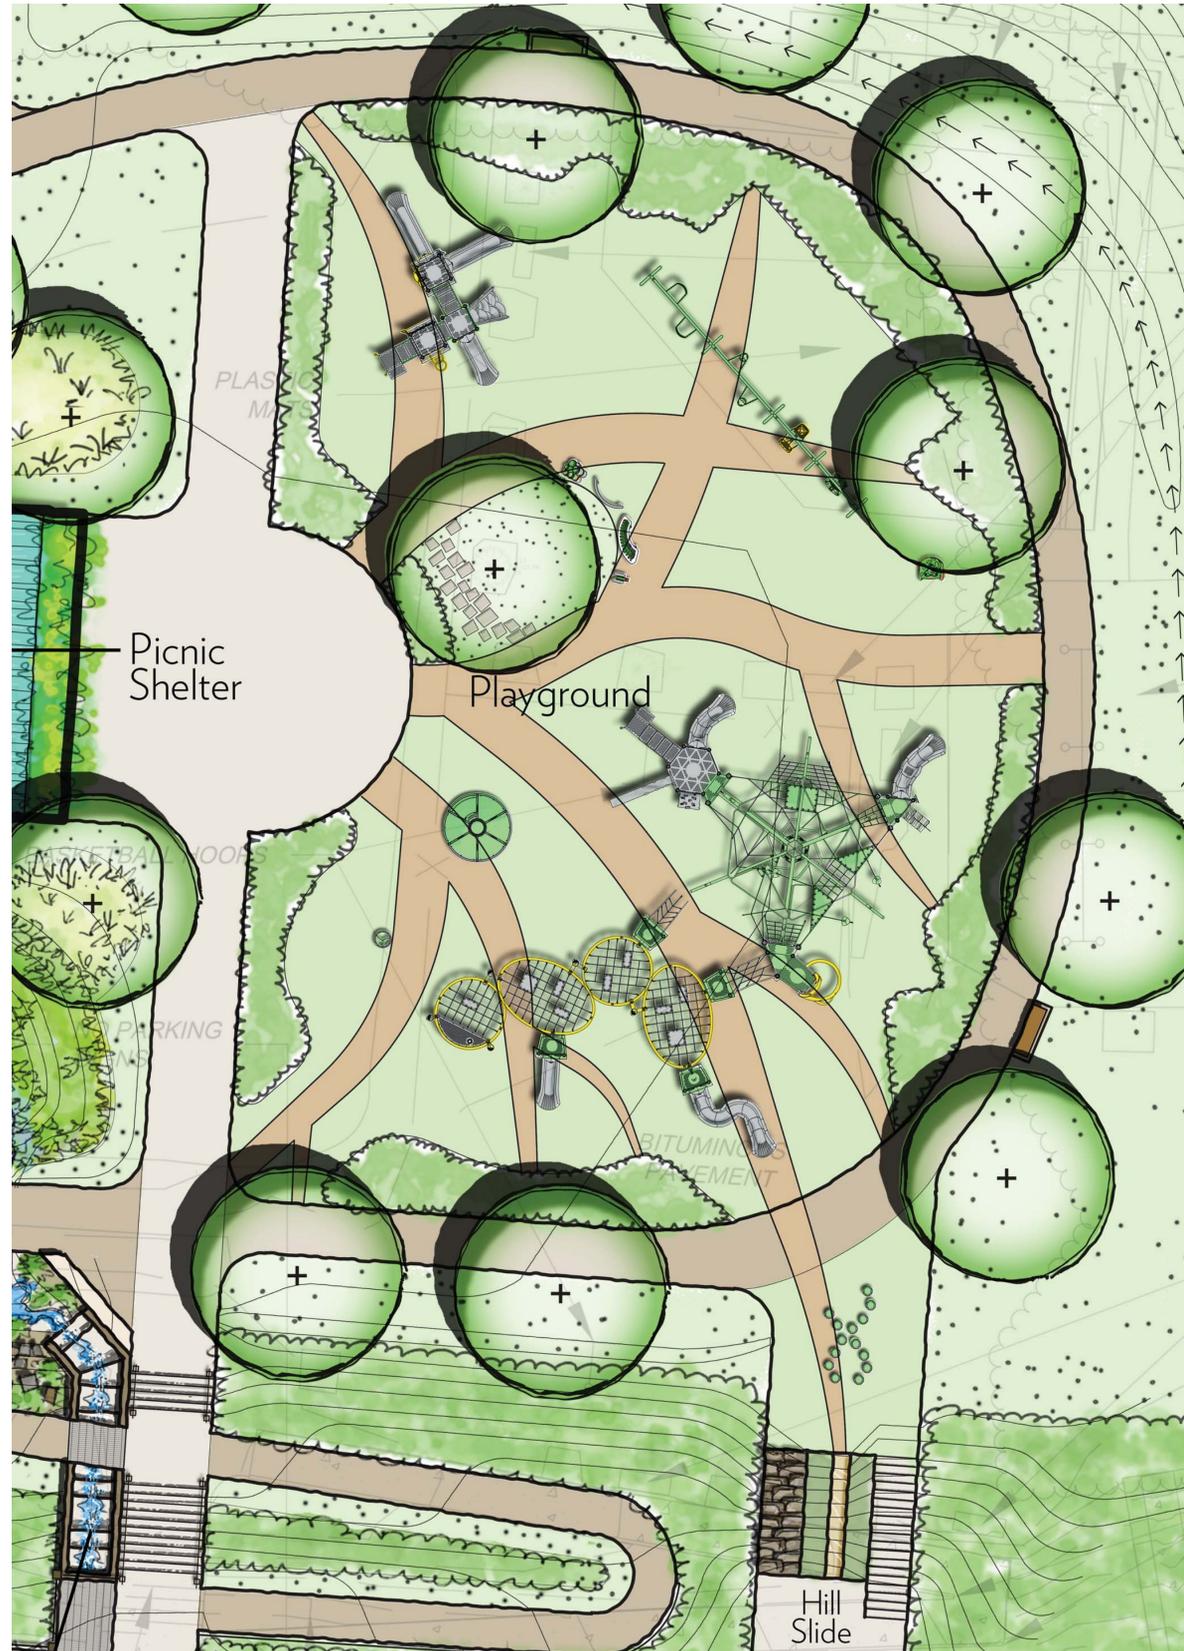

**Construction**  
Park improvements are constructed!

# “Wetland Wonders” Playground Concept

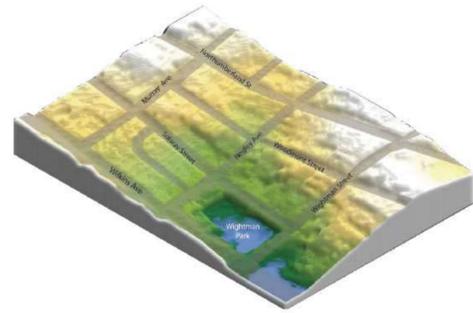

# “Climb High” Playground Concept

# Green Infrastructure | What do you like? What would you change?

Wightman Park location, drainage area

Wightman Park topography

Stream channel in urban wetland

Stormwater cascade, allowing stormwater from Solway to flow down the hill and into the Water Garden.

Concrete blocks and plantings will frame the Water Garden and help convey stormwater into the Wetland.

Trench grate, allowing stormwater to flow under paths.

The Wetland will clean stormwater runoff, provide habitat, and allow for nature education.

Stepping stones through the wetland creates fun opportunities to get closer to nature and access the Picnic Shelter

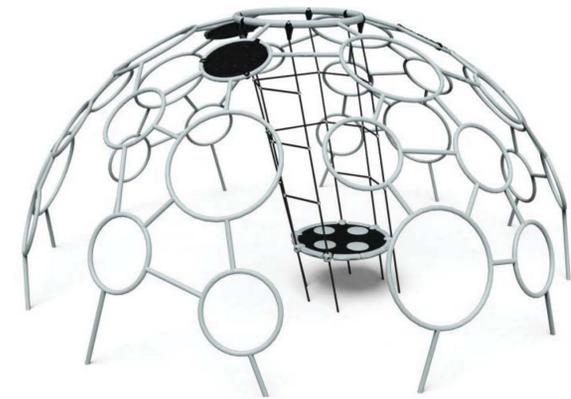

Precast concrete boardwalk allows people of all ages and abilities to access the Wetland.

Picnic shelter with green roof.

# Potential Ground Play Components | What feature do you like the most?

Unity Dome

Unity SpinR

Different Types of Swings

Hoopla Swing

DO YOU HAVE OTHER IDEAS?

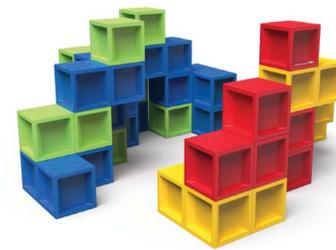

Bounce Button

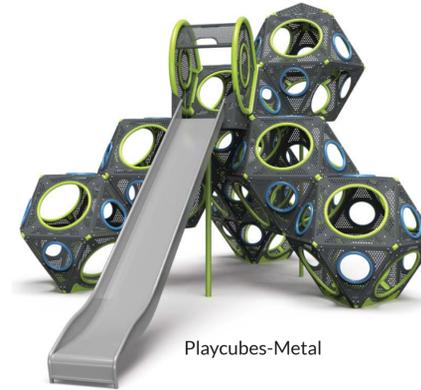

Nucleo

Spin Cup

Climbing Squares

Playcubes-Metal

MUSIC, RHYTHM AND SOUND

Rocker Cycle

Cozy Cocoon Spinner

Quatro See Saw

Balance Trax

# Active Recreation Areas | Besides the playground, what will you do at the park?

DO YOU HAVE OTHER IDEAS?

# Park Amenities | What is most important to you? Is anything missing?

Green roof picnic shelter

Landscape seatwalls

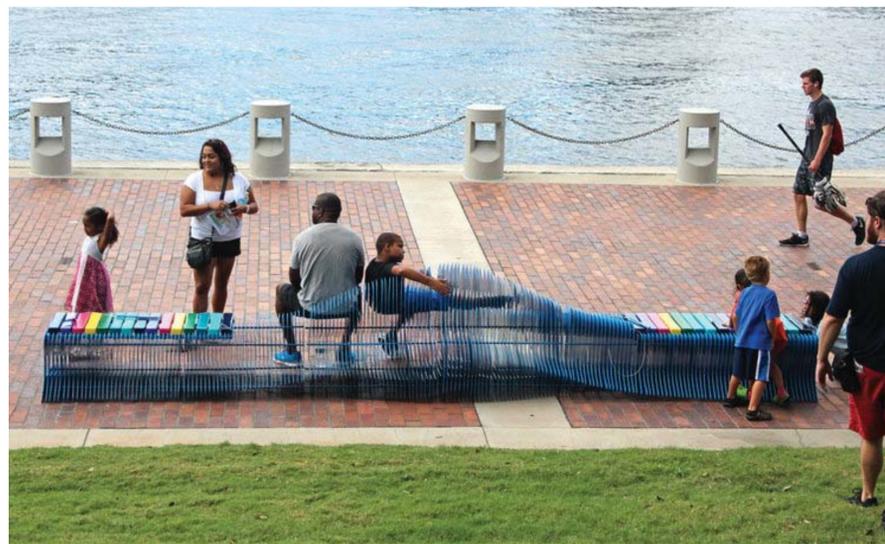

Public art

Plantings

DO YOU HAVE OTHER IDEAS?

Specialty bench/instrument

Drinking fountain

Restroom building

Trash and recycling receptacles

Pathway lighting

Bench

Shade structure
