Chateau Street 2019

Chateau Street is a wide, one-way street that serves as a service road to access PA Route 65. Chateau Street is owned by the Pennsylvania Department of Transportation.

Due to its width and relatively low traffic volume (approximately 10,000 vehicles per day), motorists tend to speed regularly; while the speed limit is 35 MPH, the median speed on Chateau Street is 39 MPH, and the 85% speed is 45. The street will be reduced to one through lane (with a turning lane at the on- and off-ramps to Rt 65) with painted bump outs and a parking lane.

Additionally, a Rapid Flashing Beacon (RRFB) will be installed at the intersection of Juniata St, the only point where pedestrians can cross beneath the elevated highway to access the Chateau neighborhood.
Improved crossings:

- Rapid Flashing Beacons (RFBs) at Juniata St
- Hi-Visibility Crosswalks
- Painted Bump-Outs → Short Crossing Distances
**Road Diet:** Narrowing and reducing travel lanes to reduce conflict and shorten crossing distances.
