**SAFE, HEALTHY STREETS**  
for Manchester-Chateau

The first project in the implementation of the Manchester-Chateau Neighborhood Plan is making safe connections between Manchester, Chateau, and the riverfront with green streets, specifically the Route 65 underpass. Turning these streets into green, park-like streets will significantly improve the safety of pedestrian crossing, as well as provide environmental benefits.

All are welcome to participate. There will be a “play station” for children.

For additional information, visit [pittsburghpa.gov/dcp/mcnp-projects](http://pittsburghpa.gov/dcp/mcnp-projects).
