

CITY OF PITTSBURGH Members of Fire Fighters IAFF Local No.1:

NOTICE CONCERNING MEDICAL TREATMENT FOR YOUR WORK-RELATED INJURY OR ILLNESS

The City of Pittsburgh (hereinafter "employer") has selected the following list of physicians and other health care providers (hereinafter "listed panel provider"). **Should you require medical attention for your work-related injury or illness, you must select from one of the listed panel providers. If you require ongoing treatment you must continue to visit one of the providers listed below for thirty (30) days from the date of your first visit.**

This list is posted at your facility for you to view. Also, you may obtain a copy of this list from WorkPartners Claims Management Services at 1-800-633-1197.

If you are injured at work or suffer an occupational illness, you have certain legal RIGHTS and DUTIES under Section 306(f.1)(l)(i) of the Workers' Compensation Act regarding your medical treatment. These rights and duties are summarized below.

MEDICAL TREATMENT DURING THE FIRST 30 DAYS

You have the **RIGHT** to receive reasonable and necessary medical treatment for your work-related injury or occupational illness. Your employer must pay for the treatment, as long as the treatment is by one of the listed panel providers.

You have the **RIGHT** to choose which of the listed panel providers will treat you for your work-related injury or illness.

You have the **RIGHT** to switch among any of the listed panel providers when you receive treatment; and if a listed panel provider refers you to a physician not on your employer's list, you have the right to receive treatment from the referral physician.

You have the **RIGHT** to receive treatment at the closest Emergency Department for your initial care. However, non-emergency treatment and follow up care must be given by a listed panel provider.

In all cases where surgery is recommended, you shall be allowed to get a second opinion from a physician of your choice. The employer shall pay the cost for the second opinion provided that the physician chosen is Board certified in the specialty area for which the surgery is recommended. Prior to proceeding with surgery from a physician of your choice, you must consult with the City's listed panel provider if such surgery is within the first thirty days of treatment. The final decision as to the surgery and choice of physician would remain with you.

You have the **DUTY** to visit one or more of the listed panel providers for the first 30 days of treatment for your work-related injury or illness if you expect your employer to pay for the medical treatment you receive.

If you seek treatment for your work-related injury or illness from a physician of your choice, your employer may choose not to pay for that medical treatment during this 30-day period.

IMPORTANT: The list of panel providers is on the reverse side of this form.

MEDICAL TREATMENT AFTER THE FIRST 30 DAYS

You have the **RIGHT** to receive treatment from any physician of your choice, whether or not they are a listed panel provider. Your employer must pay for this treatment, as long as it is reasonable and necessary for your work-related injury or occupational illness and has been properly documented by the physician of your choice (these reports must be filed within 21 days after the first visit and, at least once a month for as long as treatment continues.)

You have the **DUTY** to notify your employer if you receive treatment from a physician of your choice. You must notify your employer within 5 days of the first visit to any physician that is not a listed panel provider. The employer may not be required to pay for treatment received until you have given this notice.

By signing this form I have been informed of and understand my medical treatment rights and duties with regard to work-related injuries and occupational illnesses. My refusal to sign this form does not release me of my medical treatment duties regarding work-related injuries and occupational illnesses. This notice was presented to me at (check one):
